

 **JKP paints®**
Rang De Duniya

A modern two-story house with a vibrant exterior. The main body of the house is painted yellow, with a blue section on the right side and white trim around the roofline and windows. A small balcony with white columns is visible on the left. The house is set against a background featuring a large stack of colorful paint cans in shades of yellow, orange, pink, purple, green, and blue. A prominent red lightning bolt graphic cuts across the upper portion of the image. The overall theme suggests the quality and variety of JKP paints.

Durability | Consistency | Reliability

JKP PAINTS INDIA PRIVATE LIMITED

We, JKP Paints India Private Limited, established in 2011, are a paint manufacturing company that develops, manufactures, and markets end-to-end products for all your painting needs. Our product portfolio includes Interior & Exterior Emulsions, Distemper, Cement Paint, Interior & Exterior Primers & Putties, etc.

We have our roots in the Minerals and Raw Materials manufacturing industry. Hence, all our products are the best in quality, yet cost-effective. The driving forces of the company are quality, performance, innovation, and service.

RANGE

QUALITY POLICY

We are Committed to provide the best quality products to our customers. We achieve this by using world-class manufacturing practices, by continuously improving the effectiveness of the quality management system, by understanding customer requirements and exceeding customer expectations

We are continuously upgrading the competency of all our employees through training, by working towards enhancing customer satisfaction and utilizing total employee involvement in achieving quality objectives.

Our expertise and products make us one of the most desirable paint manufacturers in India.

VISION

We want to be an innovative, agile, and responsive world class research and technology organisation that's aligned to future customer needs and catalyses the growth of the company across existing and future businesses

ECO-FRIENDLINESS

INDUSTRIAL PAINT

JKP Paints has been in the business of protecting & enhancing effective service life of plant & machinery and national infrastructure with its range of high-performance industrial coatings & services. Meeting the highest level of international standards, through a process of innovation continued improvements, we not only meet but exceed the requisite legislation of both business & environment.

MARINE PAINT

JKP Paints is well setup for Marine requirements.
We provide Antifouling paint for boats

RED OXIDE PRIMER

Red Oxide metal primer acts as a preparatory or protective coating that prevents rust formation on the ferrous metal surfaces exposed to humidity and air.

Used for gates, railings, and outdoor equipment the primer is applied to the rusty surfaces before applying a topcoat.

ALUMINIUM PAINT

It is a high-class product that gives a protective metallic luster to metal surface. It can be used to safeguard surfaces like metal grills, gates, roof, and pipes from corrosion due to its water permeable nature.

FIREPROOF PAINT

Fireguard is a fire retarding paint. It consists of a non-flammable base and special additives.

This paint prevents the spread and localizes the fire giving you time to seek help. It can be applied to any surfaces like on masonry, wood, metal etc.

Performance:

1. Explosion Resistant
2. Hose Stream Resistant
3. Cryogenic Immersion / Splash & Spill Resistant

IMPORTANT ATTRIBUTES OF JKP'S PRODUCT

- Better Workability
- Better Crack Resistance
- Better Water Resistance
- Better after Sales Service
